

学术报告

为了助推海外引进人才Yurova Alla副研究员尽快融入冻土工程国家重点实验室，特别邀请她做一次学术报告，欢迎感兴趣的科研人员和研究生参加。

时间：2023年3月6日 星期一 下午16:00

地点：冻土工程国家重点实验室4楼学术厅

Title:

Interactions between cold ecosystems and climate:
when the spatial heterogeneity matters

Speaker:

Dr. Yurova Alla graduated from Moscow State University with a Master's degree in atmospheric science, and received a PhD degree in ecosystem modelling from Lund University, Sweden, in 2007. Her previous affiliation was at the Soil Science Institute of RAS, Moscow, where she served as a Senior Scientist. In December 2022 she joined the State Key Laboratory of the Frozen Soil Engineering at NIEER as an Associate Professor. She has published more than 25 academic papers in the highly-ranked international journals. Her research has been funded by the Russian Science Foundation and other agencies, including the civil funds and a private sector. She completed the role of the UN national drought coordinator and was in the editorial team for the National Strategy for Drought Adaptation and contributed to the Arctic Resilience Report of an Arctic Council

Research focus: land-atmosphere interaction, hydropedology, scale issues in ecohydrological modelling, DOC modelling
